

WiiN daily

Clean Energy. Clear Focus. Better Health.

Late Pre-Seed Pitch Deck

COMPANY SNAPSHOT

WiiN daily is a late pre-seed consumer wellness company entering the oral nicotine or caffeine pouch category.

Positioned at the intersection of oral health, nicotine replacement, functional wellness, and consumer CPG.

Stage: Product manufactured, market ready.

OUR STORY

WiiN daily was born out of a simple realization: people want the focus and predictability they rely on — without compromising their health.

Built by a doctor-led founding team, WiiN daily reimagines the everyday pouch with a cleaner, more thoughtful approach — designed for modern performance, long days, and smarter choices. By blending clinical insight with consumer innovation, we set out to create a better alternative for people who want to win their day without settling for what's already on the shelf.

WiiN daily isn't about extremes. It's about better — done daily.

OUR MISSION

To reimagine the everyday pouch with clinical rigor and consumer innovation — empowering people to win their day with clean energy, clear focus, and better health.
